

PAVAN KUMAR A

Bangalore, Karnataka, India • +91 9901504661 • pk4711560@gmail.com

SUMMARY

Full-Stack Engineer with a strong focus on frontend development and API-first architectures. Skilled in React, JavaScript/TypeScript, Node.js, and Java, with experience designing RESTful APIs, integrating backend services, and building intuitive UIs. Hands-on with Postman for API testing and documentation.

WORK EXPERIENCE

Software Development Engineer – Gem Ventures (Dec 2024 – Present)

- Developed and maintained University ERP modules (fee payments, hostel management, academic resources) with a frontend-first approach using JavaScript, ensuring responsive and intuitive user interfaces.
 - Collaborated with faculty and students to gather requirements and deliver customer-focused, responsive solutions, implementing frontend interfaces with HTML and CSS.
 - Performed extensive API testing and debugging using Postman to ensure seamless data flow and system reliability.
-

Open-Source Contributor & Developer – Primarykey (API-Based Web Application) | Deployed on Railway (Aug 2025)

- Designed and developed a full-stack web application using **Node.js**, **Express.js**, **MySQL**, and **JavaScript**, built with an API-first architecture.
 - Implemented secure authentication workflows (**JWT-based access control**, **session management**) and **role-based authorization**, ensuring data integrity and system security.
 - Developed **RESTful API** endpoints with optimized query execution and error handling, enabling seamless client-server communication and multi-platform integration.
 - Deployed on Railway cloud with managed MySQL, configured schema migrations, and optimized database performance using indexing, normalization, and query tuning.
-

Technical Content Writer - GeeksForGeeks (Internship, remote Mar 2024 - Dec 2024)

- Authored articles on web development and design, simplifying complex technical concepts.
-

SKILLS

- Programming Languages:** JavaScript (ES6+), Java, PHP, C
 - Technologies & Frameworks:** React, Node.js, Express.js, RESTful APIs, API Lifecycle Management
 - Databases:** MySQL (Schema Design, Query Optimization, Indexing, Normalization)
 - Tools & Platforms:** Postman, Git, GitHub, VS Code, MySQL Workbench, AWS, Railway, GitHub Pages, CI/CD (GitHub Actions)
 - Soft Skills:** Problem-Solving, Requirement Analysis, Technical Writing, Collaboration, Mentorship
-

EDUCATION

Sai Vidya Institute Of Technology, Bangalore, Karnataka, India

- Bachelor of Engineering – Information Science and Engineering (2020–2024)

Science Academy PU college, Davanagere, Karnataka, India

- Pre-University (2018–2020)
